SUMMARY

As a full stack developer, I have a proven track record of building scalable web applications using Java and React. I am proficient in the Spring Boot and Node.js frameworks, as well as React on the front-end, and MySQL on the back-end. I possess strong problem-solving skills, attention to detail, and the ability to work both independently and collaboratively in a team environment. I am committed to staying up-to-date with the latest industry trends and technologies, and I am eager to contribute my skills and experience to help organizations achieve their goals.

SKILLS

Java   Node.js   PHP   Html   CSS

JavaScript   MySql   Firebase   Oracle   JSF

Spring / Spring Boot   JavaFx   Thymeleaf

React   BootStrap   Oracle Report Builder

TOOLS

IntelliJ IDEA   Eclipse   NetBeans

WebStrom   DataGrip   PLSql   Vs Code

WORK EXPERIENCE

Java Developer
May 02, 2023 - Continue..

Rendream

- Developed a sophisticated desktop application for diagnosing iPhones, Android devices, and iPads.
- Implemented multi-threading to manage simultaneous connections for multiple devices on MacBooks.\
- Collaborated on repository management and version control using Git for streamlined development and code collaboration.
- Integrated API calls to enable seamless data exchange and precise diagnostic capabilities.
- Designed and developed responsive JavaFX applications focusing on intuitive and user-friendly interfaces.
- Delivered high-quality software solutions in a dynamic and fast-paced environment.
- Enhanced problem-solving and Java development skills through complex application development.
- Contributed to developing and implementing new features for the diagnostic desktop application.
- Identified and resolved client system issues remotely, ensuring minimal downtime and optimal performance.
- Provided technical support to clients by diagnosing and troubleshooting software-related problems.
